Projects

Airbnb-Style Website

- Built a **full-stack** accommodation booking platform using the **MERN** stack and **MVC** architecture.
- Focused on **user-friendly** design for a seamless booking experience.
- Incorporated features like property listings, user sign-up/login with Passport validation, and a review section.

E-Commerce Website

- Developed a multi-page e-commerce website clone using **HTML**, **CSS**, and **JavaScript**.
- Included Home, shop, blog, about, contact, and cart pages, ensuring easy navigation.
- focusing on a user-friendly and **responsive** design.

Education

Bachelor of Computer Information System (BCIS)   2022 - Present
- Shaykh Zahid University – Afghanistan

General Education (Class XII)
- Ghulam Mohammad Ghubar High School – Afghanistan   2009 - 2021
- Percentage: 84%

Positions of Responsibility

- Took **full ownership** of the design and development of web projects, focusing on user experience through responsive layouts and intuitive navigation.
- Ensured websites were visually appealing and functionally **robust**, allowing users to browse products and read blog posts easily.
- Regularly tested and enhanced performance and usability using **HTML**, **CSS**, **JavaScript**, **React**, and **Bootstrap**.
